

How to Setup Internet Connection from Windows XP by Using U | dial

Windows XP

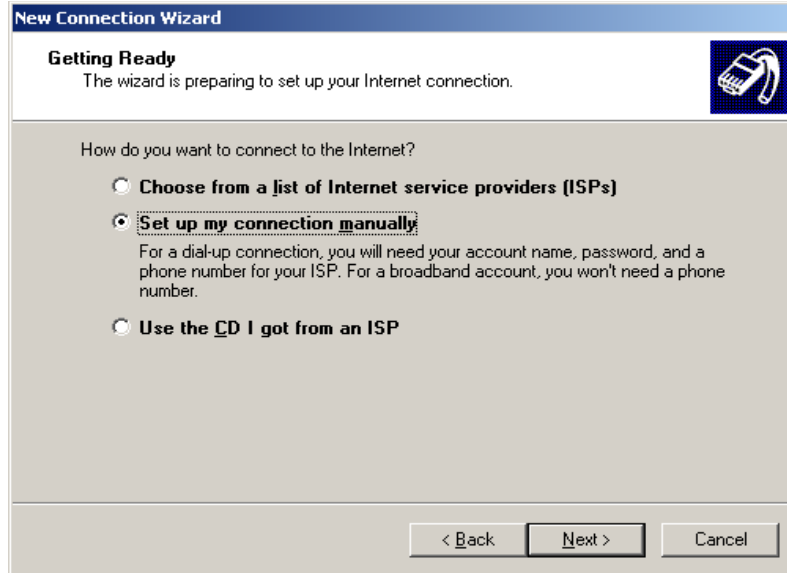

1. Go to the **Control Panel** (Click **Start** and then select **control panel**).
2. Select **Network and Internet Connections**.
3. Select the **Network Connections** icon.
4. Click **Create a New Connection** under **Network Tasks** on the left of the screen.
5. **New Connection Wizard** box will be presented. Click **Next**.

6. Choose **Connect to the Internet** and click **Next**.

7. Choose **Set up my connection manually** and click **Next**.

The screenshot shows the 'New Connection Wizard' dialog box. The title bar reads 'New Connection Wizard'. The main heading is 'Getting Ready' with a sub-heading 'The wizard is preparing to set up your Internet connection.' and a modem icon. The question is 'How do you want to connect to the Internet?'. There are three radio button options: 'Choose from a list of Internet service providers (ISPs)', 'Set up my connection manually' (which is selected and has a dotted border), and 'Use the CD I got from an ISP'. A descriptive paragraph explains that for a dial-up connection, account name, password, and phone number are needed, while for broadband, only a phone number is needed. At the bottom are buttons for '< Back', 'Next >', and 'Cancel'.

New Connection Wizard

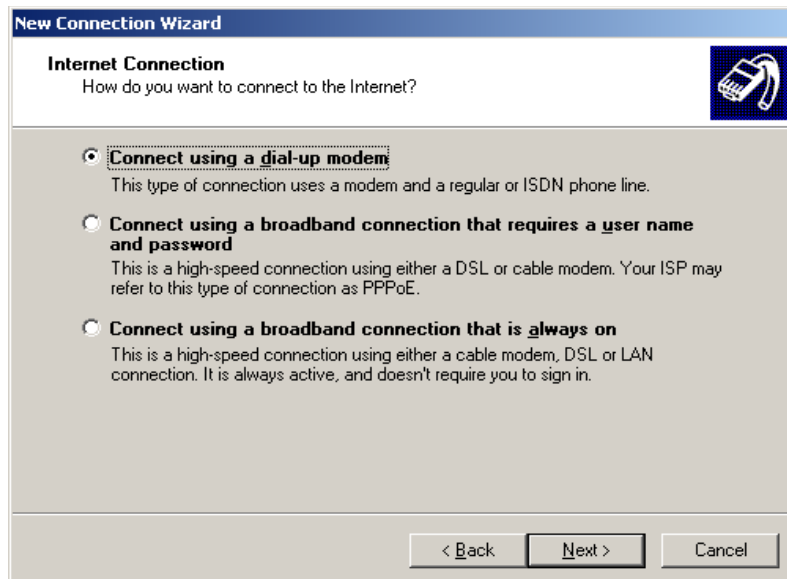

Getting Ready
The wizard is preparing to set up your Internet connection.

How do you want to connect to the Internet?

- Choose from a list of Internet service providers (ISPs)
- Set up my connection manually**
For a dial-up connection, you will need your account name, password, and a phone number for your ISP. For a broadband account, you won't need a phone number.
- Use the CD I got from an ISP

< Back Next > Cancel

8. Choose **Connect using a dial-up modem** and click **Next**.

The screenshot shows the 'New Connection Wizard' dialog box. The title bar reads 'New Connection Wizard'. The main heading is 'Internet Connection' with a sub-heading 'How do you want to connect to the Internet?' and a modem icon. There are three radio button options: 'Connect using a dial-up modem' (which is selected and has a dotted border), 'Connect using a broadband connection that requires a user name and password', and 'Connect using a broadband connection that is always on'. Descriptive paragraphs explain each option. At the bottom are buttons for '< Back', 'Next >', and 'Cancel'.

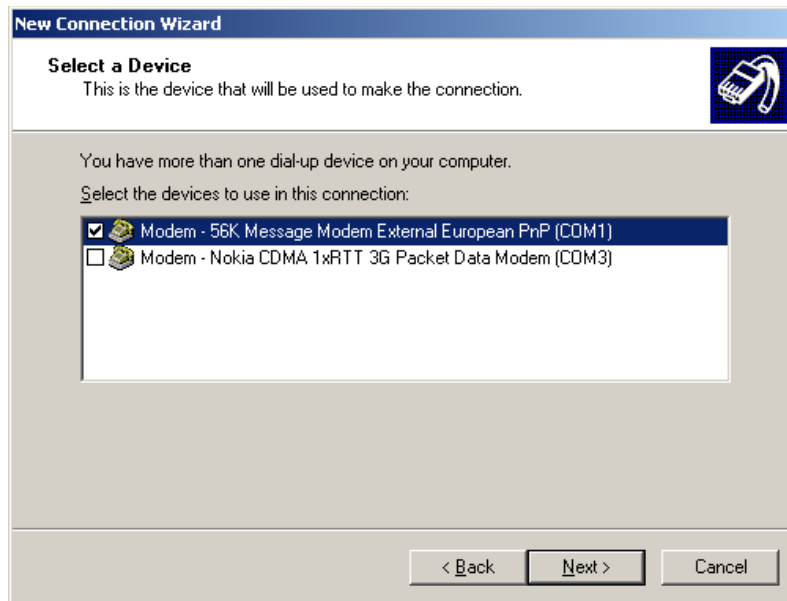

New Connection Wizard

Internet Connection
How do you want to connect to the Internet?

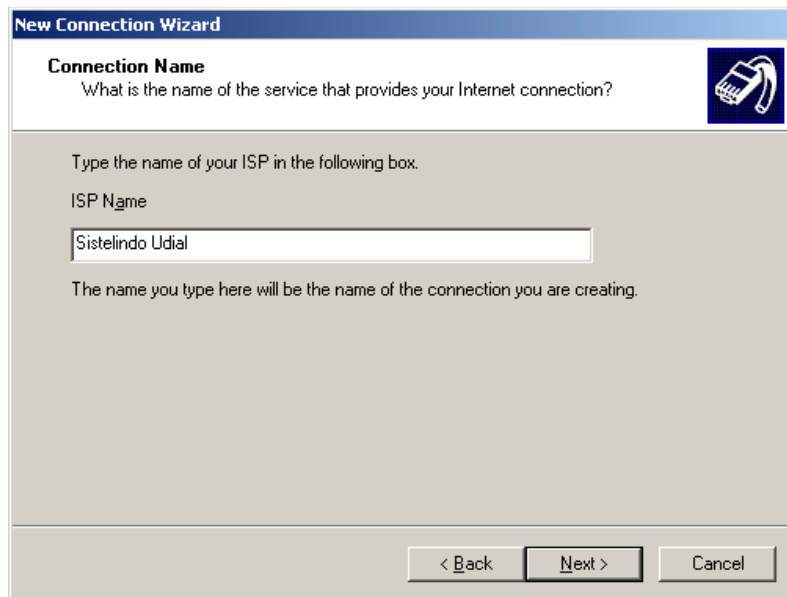

- Connect using a dial-up modem**
This type of connection uses a modem and a regular or ISDN phone line.
- Connect using a broadband connection that requires a user name and password**
This is a high-speed connection using either a DSL or cable modem. Your ISP may refer to this type of connection as PPPoE.
- Connect using a broadband connection that is always on**
This is a high-speed connection using either a cable modem, DSL or LAN connection. It is always active, and doesn't require you to sign in.

< Back Next > Cancel

9. Choose modem that will be used. Click **Next**

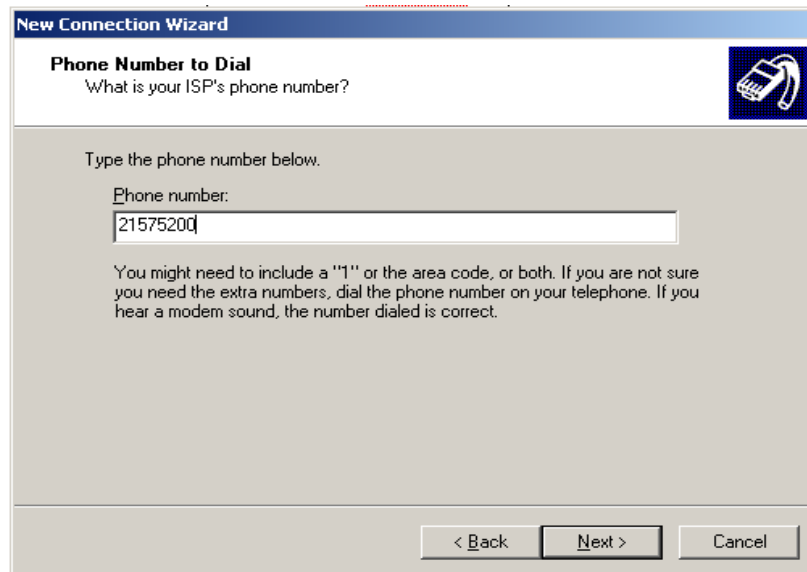

10. Give name for your connection. Click **Next**.

11. Type the phone number (**21575200** or **080988099**) and click **Next**

Note : If you are not sure of your local access number, please contact Sistelindo Helpdesk for assistance

The screenshot shows a window titled "New Connection Wizard" with a blue header bar. Below the header, the title "Phone Number to Dial" is displayed in bold, followed by the question "What is your ISP's phone number?". To the right of the text is a small icon of a telephone handset. Below this, the instruction "Type the phone number below." is shown. A text input field labeled "Phone number:" contains the text "21575200". Below the input field, a paragraph of text reads: "You might need to include a '1' or the area code, or both. If you are not sure you need the extra numbers, dial the phone number on your telephone. If you hear a modem sound, the number dialed is correct." At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel".

12. Fill in your username and password, (username@u.net.id only for PWS number 080988099) and both the username and the password should be entered as all lower case. You will need to enter the password twice to confirm it. Click **Next**.

The screenshot shows a window titled "New Connection Wizard" with a blue header bar. Below the header, the title "Internet Account Information" is displayed in bold, followed by the instruction "You will need an account name and password to sign in to your Internet account.". To the right of the text is a small icon of a telephone handset. Below this, the instruction "Type an ISP account name and password, then write down this information and store it in a safe place. (If you have forgotten an existing account name or password, contact your ISP.)" is shown. There are three text input fields: "User name:" containing "username", "Password:" containing seven dots, and "Confirm password:" containing seven dots. Below the input fields, there are two checked checkboxes: "Use this account name and password when anyone connects to the Internet from this computer" and "Make this the default Internet connection". At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel".

13. On the final screen, check the box marked **Add a shortcut to this connection to my Desktop** if you want the dial on the desktop and click **Finish**.

14. You should now have an **Sistelindo U dial** connection icon on your desktop. Double click it to connect. If you do not see the new connection icon you just created, you can go to your **Start** menu and select **Connect To**. You can then choose your new **Sistelindo U dial** connection.

15. Make sure your username and password are entered and click **Dial**.
